NATIONAL WORKSHOP ON MULTICRITERIA DECISION

MAKING AND OPERATIONS RESEARCH 2026

LAMCDRO LABORATORY, November 28-29, 2026,
Faculty of Mathematics, USTHB

---- NWMDMOR26- LAMCDRO ---- CALL FOR PAPERS ----

Multi-Criteria Optimization, Learning and Graphs: Theory, Algorithms, and Application

The Laboratory of Multi-Criteria Decision Aid and Operations Research (LAMCDRO) at the University of Science and Technology Houari Boumediene (USTHB) is organizing this scientific workshop to bring together researchers, academics, and practitioners working in the fields of Operations Research and Multi-Criteria Decision Aid. The workshop aims to provide a forum for presenting and discussing recent scientific advances, methodological developments, and innovative applications in these fields. It seeks to foster scientific exchange, encourage interdisciplinary collaboration, and strengthen synergies between theoretical research and practical applications. Furthermore, it underscores the pivotal role of Operations Research and Multi-Criteria Decision Aid in supporting rigorous, evidence-based decision-making, optimizing the allocation and use of resources, and advancing the sustainable, efficient, and resilient development of organizations and society at large.

MAIN THEMES

- ✓ Multi-Objective Optimization,
- ✓ Multi-Criteria Decision Aid,
- ✓ Optimization and Stochastic Optimization,
- ✓ Multiobjective Combinatorial Optimization,
- ✓ Optimization over the Pareto optimal set,
- ✓ Fair Multicriteria Optimization, Graph Theory,
- ✓ Supply Chains, Scheduling,
- ✓ Networks, AI, Optimization and Big Data.

IMPORTANT DATES

- ✓ Deadline for abstract submission : 17/11/2026
- ✓ Notification of acceptance: 19/11/2026
- ✓ Event dates: November 28-29, 2026
